Education

2018-22 **PhD, Environmental Sciences, University of East Anglia (UK)**
The environmental determinants of dispersal and migratory movements of long-lived birds.
Supervisors: Aldina Franco, Phil Atkinson, João Paulo Silva

2009-12 **MSc, Conservation Biology, University of Lisbon (Portugal)**
Influence of grazing on the birds of Montado.
Supervisor: Jorge Palmeirim

2006-09 **BSc, Biology, University of Lisbon (Portugal)**

Academic Work Experience

2025 – ongoing **Junior Researcher**
Mechanisms underlying the rapid loss of migratory behaviour under anthropogenic environmental change: a multidisciplinary approach
BIOPOLIS-CIBIO, Univ. Porto (Portugal)

2024-25 **Post-doctoral Fellow**
Effects of anthropogenic food subsidies on the health and movements of opportunistic avian species: a One Health approach.
Institut de Recherche pour le Développement (France)

2022-24 **Post-doctoral Fellow**
Uncovering how links between social and spatial interactions affect ecological processes.
Tel Aviv Univ. (Israel) in collaboration with Univ. California LA (USA)

2014-17 **Research Associate**
Movetech Telemetry – Proof of concept of animal tracking technology.
Univ. East Anglia (UK) in collaboration with British Trust for Ornithology (UK) and Univ. Porto (Portugal)

2015 **Research Assistant**
Satellite tracking of Houbara Bustards in Uzbekistan.
Univ. East Anglia (UK)

2014 **Field Assistant**
Effects of tropical forest fragmentation on Amazonian bats and birds.
Univ. Lisbon (Portugal) and Institute of Amazonian Research (Brazil)

2014 **"Leonardo da Vinci" EU Internship**
Study of the migration of Lesser Black-backed Gulls.
Institute for Avian Research (Germany) and Univ. Groningen (The Netherlands)

2011-13 **Research Assistant**
Effect of grazing on the birds and bats of Montado forests.
Univ. Lisbon (Portugal)

2009 **Research Internship**
Insects of Guinea-Bissau.
Univ. Lisbon (Portugal)

Competitive Funding

Fellowships and Scholarships

2025-31 **Junior Researcher** (6-year contract)
Mechanisms underlying the rapid loss of migratory behaviour under anthropogenic environmental change: a multidisciplinary approach
Foundation for Science and Technology (Portugal)

2025-27 **Juan de la Cierva Fellowship** (72,000€ - declined)
Individual drivers and energetic costs of partial migration under future climate change scenarios.
Agencia Estatal de Investigación (Spain).

2024-25 **Make our Planet Great Again Fellowship** (30,500€)
Effects of anthropogenic food subsidies on the health and movements of opportunistic avian species: a One Health approach.
Campus France (France)

2023 **George S. Wise Postdoctoral Fellowship** (1-year contract)
Ageing in nature: lifelong changes in the movement and social behaviour of the endangered Griffon Vulture.
School of Zoology, Tel Aviv Univ (Israel)

2018 **Research Placement Grant** (3-month placement)
The environmental determinants of dispersal and migratory behaviour of long-lived birds.
Newton Fund Grant, for a placement at the Univ. Cape Town, South Africa.

2018-22 **PhD Scholarship**
The environmental determinants of dispersal and migratory movements of long-lived birds.
NEXUSS CDT, Natural Environment Research Council (NERC, UK)

2014 **Leonardo da Vinci Scholarship** (6-month placement)
Study of the migration of Lesser Black-backed Gulls.
European Union.

Projects as Principal Investigator

2023-25 **British Ecological Society Large Grant** (£20,000)
Consequences of early-life conditions on first-year migratory decisions of a partially migratory species.

Projects as Team member

2025-28 **FCT Project**
Wings of Change: Unravelling the ontogeny of bird migratory behaviour in a changing world.
PI: Inês Catry (BIOPOLIS-CIBIO, Portugal). **Role: Team member**

2023-27 **COST Action**
EUFLYNET - A European flyway research network for the effective conservation of migrant landbirds.
PI: Ivan Maggini (Univ. Vienna, Austria). **Role: Grant Awarding Coordinator**

2022-24 **NSF-BSF Project**
Uncovering how links between social and spatial interactions affect ecological processes.
PI: Orr Spiegel (Tel Aviv Univ., Israel) & Noa Pinter-Wollman (Univ. California LA, USA). **Role: Post-doc**

2018-21 **FCT Project**
Birds on the move – Adaptive migratory behaviour in response to global environmental change.
PI: Inês Catry (BIOPOLIS-CIBIO, Portugal). **Role: PhD candidate**

2014-17 **Natural Environment Research Council**
Long range wireless devices for high-resolution monitoring of animal movement
PI: Aldina Franco (Univ. East Anglia). **Role: Team member**

2015 Houbara Conservation & Sustainable Hunting: An evidence-based approach
PI: Paul Dolman. **Role: GIS Technician.**

2012-13 **FCT Project**
Agro-forestry management practices of montados and its impacts on bats and birds
PI: Jorge Palmeirim. **Role: Research assistant.**

Awards

2023 **British Ornithologists' Union Conference Attendance Grant** (£700)
Ageing in nature: Lifelong changes in the movement and social behaviour of griffon vultures.
Award to attend the European Ornithologists' Union Conference.

2023 **Best poster communication at the GRC Movement Ecology of Animals** (2nd place, $250)
Ageing in nature: Lifelong changes in the movement and social behaviour of griffon vultures.

2020 **Best oral communication at the Portuguese Ecology Society Conference**
The influence of weather on the migratory performance of juvenile and adult white storks.

2018 **Christiane Howey Rising Scholar Award, Microwave Telemetry** (5 GPS-GSM devices, worth $25,000)
Latitudinal differences in migratory behaviour of juvenile black storks from a partial migratory population.

2018 **NEXUSS Capital Programme** (£25,000)
The environmental determinants of dispersal and migratory behaviour of long-lived birds.
Grant to help funding the PhD work.

2011 **British Ecological Society Travel Grant** (£200)
Grant to attend the Tropical Biology Association course in Madagascar.

Student supervision and mentoring

PhD

3. Luca Marinoni, University of Lisbon, Portugal (2026 – ongoing) *The making and breaking of migration: how lifelong migratory strategies emerge under environmental change*. Role: co-supervisor.

2. Anna Thompson, University of East Anglia, UK (2025 – ongoing) *Should I stay or should I go: the individual determinants of variability in migratory behaviour*. Role: co-supervisor.

1. Julián Cano Povedano, University of Sevilla (2024) *White Storks as plastic biovectors*. Role: mentor.

MSc and MRes

10. Nicole Temple, University of Lisbon, Portugal (MSc, 2026 – ongoing) *Lifelong movement strategies: how early-life exploration and environmental predictability shape white stork movement strategies.* Role: co-supervisor.

9. Gonçalo Guerreiro, University of Lisbon, Portugal (MSc, 2026 – ongoing) *Sex roles and parental care in white storks during the breeding season: effects of anthropogenic food subsidies.* Role: co-supervisor.

8. Lucian Delaney, University of East Anglia, UK (MRes, 2025 – ongoing) *Morphological Variability and Post-Fledging Behaviour in White Storks: the Role of Morphology, Movement and Food Provisioning*. Role: co-supervisor.

7. Katherine Mitchell, University of East Anglia, UK (MSc, 2023) *Using GPS technology to unravel the nesting behaviour and parental effort of white storks*. Role: co-supervisor.

6. Ursula Heinze, University of East Anglia, UK (MSc, 2023) *Use of anthropogenic debris as nesting material by white storks: origin, occurrence, and effects on nesting success*. Role: co-supervisor.

5. Clara Taboada, University of Bourgogne Franche-Comté, France (MSc, 2023) *Effects of landfills on breeding White Storks' behaviour and parental roles.* Role: mentor.

4. Gideon Vaadia, University of Tel Aviv, Israel (MSc, 2022-2024) *Using accelerometer-based behavioural classification to study the drivers and consequences of supplementary feeding stations for vultures*. Role: mentor.

3. Abigail Huns, University of East Anglia, UK (MSc, 2020) *White Storks response to reducing anthropogenic food sources in Portugal*. Role: co-supervisor.

2. Ashis Datta, University of East Anglia, UK (MSc, 2019) *White stork (*Ciconia ciconia*) pre-fledging activity and post fledging behaviour, migration timing and survival in a partially migrant population*. Role: co-supervisor.

1. Andrew Slater, University of East Anglia, UK (MSc, 2018) *Physical and migration metrics of White Storks (*Ciconia ciconia*) and the influence that landfills play in their variation*. Role: co-supervisor.

BSc

1. May Moreno, Tel Aviv University, Israel (2024) *Effect of age and sex on the migration of griffon vultures*. Role: supervisor

Internships and Lab-rotations

3. Eleonora Quarata, University of Siena, Italy (ERASMUS+, 2026) *Influence of landfills on the early-life body condition and migration of white storks*. Role: supervisor.

2. Hugo Díez-Santaolalla, University of Lisbon, Portugal (Lab-rotation, 2026) *Unusual migratory stop in the final journey of three White Storks (*Ciconia ciconia*)*. Role: mentor.

1. Gaëlle Picon, École Normale Supérieure de Lyon, France (ERASMUS+, 2024) *Assessing White storks (Ciconia ciconia) reliance on anthropogenic habitats in southern Iberian Peninsula*. Role: co-supervisor.

Lecturing Activity

2025 **Seminars in Conservation Biology.** MSc in Conservation Biology, Faculty of Sciences, University of Lisbon. Portugal

2025 **Seminars in Conservation Biology**. MSc in Conservation Biology, Gorongosa National Park. Mozambique

2024 **Ecology and Management of Animal Populations**. MSc on Management and Conservation of Natural Resources, Institute of Agronomy, University of Lisbon. Portugal

Conference presentations

Invited Lectures

4. **GPS-tracking: A tool to advance ecological knowledge and conservation** (2025) *Centro de Estudos do Ambiente e do Mar (CESAM), Univ. Aveiro*. Portugal. Invited seminar speaker.

3. **Anthropogenic food subsidies and avian movement** (2025) *Movement ecology of animals, Gordon Research Conference*. USA. Invited oral communication.

2. **Ageing in nature: Lifelong changes in the movement and social behaviour of griffon vultures** (2023). *Movement ecology of animals, Gordon Research Conference*. Italy. Invited speed oral communication.

1. **The determinants of dispersal and migratory movement of long-lived birds** (2018) *FitzPatrick Institute of African Ornithology, Univ. Cape Town*. South Africa. Invited seminar speaker.
